- RxJS
- Node.js
- Express.js
- Cypress
- Solidity (basics)
- Formik
- React-query
- GIT
- WordPress
- Figma
- Photoshop Lightroom

Testimonials

"I had the pleasure of working with Mateusz on a complex, multi-tenancy project with a distributed architecture for about a year. During this time, Mateusz proved to be a dependable and capable co-worker. First of all, he quickly got up to speed with the Angular framework despite having no prior experience (he knew Vue JS and React though). Secondly, direct collaboration with Mateusz was very efficient thanks to clear, concise communication. Thirdly, probably most importantly - every time there were any early signs of conflict, Mateusz could gently resolve it before escalation. I always admired the assertiveness of Mateusz as it is a pretty rare trait in a developer. Last but not least, Mateusz was creating a great atmosphere in the team."

Sebastian Buczyński
Principal Software Engineer at Webinterpret, author of Implementing the Clean Architecture book

"Mateusz Dominiak is a brilliant and gifted frontend developer. I've had the pleasure of working with Mateusz at Ten for 2 years where we worked together on a complex multi-tenant application. During this time he has gone from strength to strength in his abilities. This is due to his hard work during office hours and improving his skills out of hours, his dedication to improve and learn has made him a key developer in our team that can be relied upon to solve critical time-sensitive bugs or effortlessly complete complex features. I highly recommend Mateusz, he will be a true asset for any team looking for a motivated and skilled frontend developer."

Liam Kenneth
Frontend Tech Lead at Ten Lifestyle Group

Old projects

CRM for pediatric clinic
Full-stack app for booking pediatric visits written in Vue.js, Node.js and Cypress.js for e2e testing.
